(a) Stock on hand.

I. Reserve Stock--ragi 2,625 pallas, local rice 237 pallas and Burmah rice 500 bags.

Note.1. This estimated quantity was left in unmeasured bags as received from talukas, at the Provincial Grain Depot, but had not been actually removed to the Municipal Stores.

Do. Do.

Do. Do.

II. Current Stock--In pallas, ragi 43, local rice first class 216½, second class 50½, and foreign rice in bags, Nellore 340 and Rangoon 126 and 25 seers.

(b) Receipt during the week by commandeering in the district and from other districts or through the Food Controller.

I. For Reserve Stock--

1. As against the 2625 pallas shown above the number of unmeasured bags actually received into the Municipal Stores during the week from the Provincial Grain Depot is 2,5[illegible]

2. As against the 237 pallas of local rice, only 60 pallas were handed over to the Municipal Stores during the week.

II. For Current Stock--In pall ragi 612.55, local rice first class 194½, and second class 197--all through Provincial Grain Depot.

(c) Issues during the week.

In pallas, ragi 655.55, local rice first class 5½, second class [illegible]

and in bags, Nellore 2 and Rangoon 126 and 25 seers.

i) Markets how supplied.

Rice--1. The wholesale and a few of the retail dealers kept their customers and the major portion of the population who usually resort to bazaars supplied with rice at not less than 6, 7½ and 8 seers the rupee the first, second and third class respectively. As some of the retail dealers could not run their shops for want of stock etc., the thirteen mohalla depots and the Municipal Central Stores were also kept up, to supply the needs of those who were unable to procure their requirements from the grain dealers and the quantity of rice so issued during the week, was only 227½ pallas of local rice and 128 bags of foreign rice.

2. The retail dealers complain that it is rather hard upon them to maintain accounts; and in consequence some of them are unwilling and others do not find it practicable with their usual untrained domestics, to continue their trade, and so a few have returned their licenses. Their complai seems to be genuine.

Ragi--As none of the dealers imported any ragi, it continued to be sold in the Municipal Depots as before

) Whether any change is required in the prices fixed.

Orders are still awaited on the proposals made in the last week's report, viz., to fix the retail rates of new rice for Mysore City at 6, 7½ and 8 seers the rupee, for first, second and third class respectively.

f) General Situation.

No ragi is yet coming to market. Inconveniences and troubles experienced by all, owing to misunder--standings and errors on the part of taluk and village officials, as frequently complained of by the importers of paddy, still continue to some extent. Nevertheless, about 200 to 250 cart loads of paddy have been coming daily of late, but mostly to the three big mills, and none yet to the public market. It is expected the situation may improve in another week's time.

(g) Any special areas or matters in regard to which anxiety is felt.

Alarmingly large quantities of subsidiary food stuffs--Hesaru, Uddu, Halasande, Chillies etc.,--are being daily exported to Bombay Presidency, with the result, Hesaru which ought now to be selling at 14 to 15 seers the rupee, is selling at 8½ seers the rupee!! Some of the neighbouring and other Governments have, it is understood, put an absolute embargo on their exports from their territories. The subject of [illegible]

controlling their exports from the State, has been referred to, and is pending orders of, Government.
